

All operations were conducted with a newly registered test vendor account.

- 1) According to the vendor instructions the product list should only show me my products (the products a user has listed) yet it shows me all products on the site:

Product List

Access path: Sidebar → Product Management → Product List

Shows every product currently in your vendor account, with search and column filters and pagination.

Permitted

✓ View, search and filter your own product list at any time.

Restricted

✗ This list only shows products added by your account — it does not list other vendors' products.

ID	NUMBER	VENDOR	BRAND	MODE	MODIF	PRICE	PARTICLE	STATUS	ACTIONS
70169	SSA0510-2530WT	YMC	BioPro	IEX	sulfopropyl	9,953.00	10	Active	View only
70168	SSA0510-2520WT	YMC	BioPro	IEX	sulfopropyl	5,715.00	10	Active	View only
70167	SSA0510-2510WT	YMC	BioPro	IEX	sulfopropyl	4,251.00	10	Active	View only
70166	SFA0505-1008WT	YMC	BioPro	IEX	sulfopropyl	6,246.00	5	Active	View only
70165	SSA0510-2546WT	YMC	BioPro	IEX	sulfopropyl	3,072.00	10	Active	View only
70164	SF00506-2546WP	YMC	BioPro	IEX	sulfopropyl	2,956.00	6	Active	View only
70163	SF00505-2546PTC	YMC	BioPro	IEX	sulfopropyl	2,822.00	5	Active	View only
70162	SSA0520-1510WT	YMC	BioPro	IEX	sulfopropyl	4,074.00	20	Active	View only
70161	SSA0510-1546WT	YMC	BioPro	IEX	sulfopropyl	2,516.00	10	Active	View only
70160	SF00505-1546WP	YMC	BioPro	IEX	sulfopropyl	2,543.00	5	Active	View only
70159	SF00505-1546PTC	YMC	BioPro	IEX	sulfopropyl	2,543.00	5	Active	View only

But it does not allow to make changes to existing columns which is good.

- 2) I don't have files for "import products" or "bulk no. update" functions so I did not test them but I tried adding a product:

- There should be an ability to create a new brand, the only option should not be to only select an already existing brand:

BRAND

Rezex RFQ-Fast Fruit

Reliasil ODS-1 90

Reliasil Phenyl 90

Reliasil Phenyl-Hexyl 90

Reliasil Polychrome 90

Reliasil SAX 90

Reliasil SCX 90

Reliasil Si 90

Resolux 120 C18

Resolux 120 C8

Resolux 200 C18

Resolux 200 C4

Resolux 300 C18

Resolux 300 C4

Resolve C18

Resolve Silica

Resolvosil BSA

Rezex RAM-Carbohydrate

Rezex RCM-Monosaccharide

Rezex RCU-USP Sugar Alcohols

- There should be an ability to simply type in parameters in product specifications section, currently it only allows to select values from lists which possibly does not cover every possible value:

Product Specifications

CARBON LOAD, %

MODE

PH STABILITY TO

ENDCAPPED

MODIFICATION

PORE SIZE

INTERNAL DIAMETER

OPERATING TEMPERATURE

PRODUCT USAGE

LENGTH

PARTICLE SIZE

SURFACE AREA

MAX PRESSURE

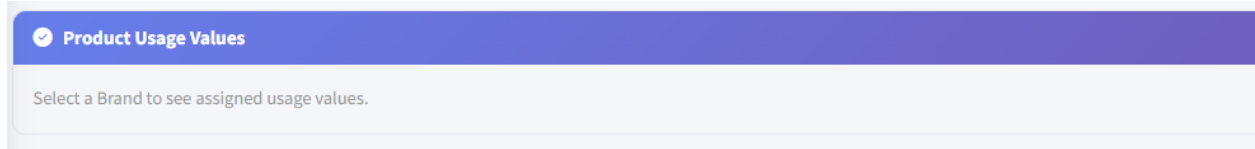

PH STABILITY FROM

VENDOR

Also, a lot of selections in the list are doubled, for example, length - 20 and 20.0. Both values essentially mean the same but use a different number format. I would suggest only leaving the xx.x format.

- Product usage only allows for a single value selection while in reality columns may have various different usages.
- Vendor parameter should have the option to create/add a new vendor should one arise.

- Product usage values – I'm not sure what this should mean:

Also, I would believe that new vendors would probably want to add new brands not only add products under existing ones.

- And most importantly – once you click save product it is not saved and does not appear in any list, no message appears to see whether it was an error, or should the vendor wait for the admin to approve the new product nor does some kind of request appear in the admin page to approve requests. So I conclude the function does not work.

3) Product values as I understand it's purpose works as intended. But:

- The list gets stuck on the first page, if you click number 2 or the advance arrows, the first page is simply reloaded.
- I was able to create and edit a brand value for example but I was not able to preview it.

4) Product usage map – could test out since none of my created products were saved.

5) Application values – seems to work fine, was able to create a value as well as edit it.
